

## **2021-2022 Richards Graduate Student Research Activity Award Application**

About these awards: Thanks to the Phil Richards Endowment Fund, the Research Office is offering graduate students a research opportunity similar to the longstanding faculty Research Activity Awards. The focus of the RAA program is enhancing excellence and innovation in research. Thus, these awards will be made on a competitive basis to graduate students to enhance their research projects. Additionally, students selected by their program to apply will benefit from compiling the application for competition.

### Eligibility

Applications are accepted from department DGSs, with chair endorsement, for CAFE graduate students in good academic standing who have completed 18 hours of graduate work at UK prior to the fall 2021 semester:

- Graduate student research projects
- Research seminars/ symposia/ workshops
- Travel to conduct research, gain experience with cutting-edge research tools and methods
- Travel to present research at a professional meeting

### Level of Support

The awards will be available for up to \$750. Funds are to be expended within the fiscal year the award is made. Requests may include some level of department or other match, whenever possible.

### Limited Submission

Other departments, with ten or more, may submit up to five applications.

### Excluded Uses

RAA funds cannot be used for graduate student stipends, tuition, or health insurance.
